

2003 Water Festivals

Support existing water festivals for children and the general public

Activity Title: Children's Water Festival in Dayton, Ohio

Activity Description: Miami Conservancy District supported the Children's Water Festival with a monetary donation, by sitting on the planning committee with the responsibility of recruiting and coordinating presenters and by presenting at the festival.

Start Date: 5/10/2003 **End Date:** 5/10/2003

Result Statement: Miami Conservancy District presented to approximately 330 children on flooding, storm water, rain gauges, the importance of monitoring the quantity of rainfall, and using your senses to aid in determining surface water quality. We also supported the festival financially with a cash donation of \$1000 and a staff leadership role valued at approximately \$1600. This person recruited and coordinated over 40 volunteer educational program presenters.

Activity Title: Preble County Earth Day Event

Activity Description: Miami Conservancy District staff gave ten 25-minute presentations at the Preble County Earth Day event.

Start Date: 4/22/2003 **End Date:** 4/22/2003

Result Statement: Miami Conservancy District presented to approximately 250 6th graders on the connection between land use and water quality and the technology behind measuring precipitation during a storm event.

Activity Title: Greenville Water Festival

Activity Description: The festival was titled, "Do it for the Wave, Keep the Green Clean". It began with storm drain stenciling and concluded with a water festival. Miami Conservancy District presented at the water festival.

Start Date: 10/25/2003 **End Date:** 10/25/2003

Result Statement: Miami Conservancy District presented to approximately 30 children about human activities that degrade water quality and activities that help improve water quality. We also supported the festival financially with a cash donation of \$200.

Activity Title: Hamilton County Waterfest

Activity Description: Miami Conservancy District staff gave five 30-minute presentations at the Hamilton County Waterfest.

Start Date: 3/18/2003 **End Date:** 3/18/2003

Result Statement: Approximately 150 children learned about flooding, storm water, rain gauges and the importance of monitoring the quantity of rainfall.

CHILDREN'S WATER FESTIVAL

'Everyone working cooperatively and collectively towards a common goal is the most important ingredient for festival success.' – Susan S. Seacrest
