

## **2004 Stormwater BMP Tour**

### **Coordinate a tour of stormwater BMPs for practitioners**

**Activity Title:** Tour of storm water Best Management Practices

**Activity Description:** During the Great Miami River Network Meeting in September, the City of Dayton conducted a Best Management Practices Tour. Environmental Management staff from the City of Dayton's Water Department showed participants the city's Phase I storm water management efforts. Having been regulated by the Phase I program for over a decade, the city led the group on a walking tour that helped participants experience the city's storm-sewer mapping project, sewer-camera truck and equipment, monitoring protocols, pump stations, outfall surveying, emergency response, and community relations efforts.

**Start Date:** 9/2/2004 **End Date:** 9/2/2004

**Result Statement:** Approximately 50 people attended the City of Dayton's walking tour of storm water best management practices. See below for a list of attendees.
